

Nickle Cheung, AIA, LEED GA

Senior Associate, Technical Lead

Nickle Cheung has led a wide range of complex mixed-use, assembly, sports, master planning, high-rise residential, and science and technology projects across the Northeast and abroad. His 16+ years of Revit coordination and BIM management experience brings invaluable expertise to the studio. Nickle has a passion for working with diverse user groups and on buildings with specialized public and private components. He is working across several project scales at Höweler + Yoon including supervising CA for the Coolidge Corner Theatre, a high-rise residential, and a single-family house. He excels at design visioning exercises, developing exterior envelopes, and building system integrations. Nickle holds a MBA which further strengthens his coordination and communication skills. He brings a unique background in business and branding and is experienced in collaborating and organizing large- and mega-scale projects and teams.
